Question Nos. 46 to 50. Read the passage given below and answer the questions choosing the appropriate option :

Have you ever failed at something so miserably that the thought of attempting to do it again was the last thing on your mind? If your answer is yes, then you should understand that you are not a robot. Unlike robots, we human beings have feelings, emotions, and dreams. We are all meant to grow despite our circumstances and limitations. Flourishing and trying to make our dreams come true feels great when life goes our way. But what happens when it does not? What happens when you fail despite all your hard work? Do you stay down and accept defeat or do you get up again? If you tend to persevere and keep going, you have what experts call 'grit'.

Falling down or failing is one of the most agonising, embarrassing, and scary human experiences. But it is also one of the most educational, empowering, and essential parts of living a successful and fulfilling life. Did you know that perseverance (grit) is one of the seven qualities that have been described as the key to personal success and betterment in society? The other six are curiosity, gratitude, optimism, self-control, social intelligence, and zest. Thomas Edison is an example of grit for trying more than 1,000 times to invent the light bulb. If you are reading this with the lights on in your room, you will realise the importance of his success. When asked why he kept going despite hundreds of failures, he merely stated that they had not been failures, they were hundreds of attempts towards creating the light bulb. This statement not only revealed his grit but also his optimism for looking at the bright side.

Grit can be learnt to help you become more successful. One of the techniques that help is mindfulness. Mindfulness is a practice that makes an individual stay at the moment by bringing awareness of his or her experience without judgement. This practice has been used to quieten the noise of fears and doubts. Through this simple practice of mindfulness, individuals have the ability to stop the self-sabotaging downward spiral of hopelessness, despair, and frustration.

What did you do to overcome the negative and self-sabotaging feelings of failure? Reflect on what you did, and try to use those same powerful resources to help you today.

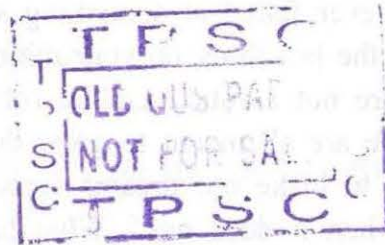

46. The reason why you are not a robot is that

- (A) You fail miserably at tasks
- (B) Failure and success can affect your emotions
- (C) You work hard
- (D) You have limitations

47. Which of the following is appropriate for the title of the passage

- (A) Dreams Always Come True
- (B) Failure and Grit Go Hand in Hand
- (C) Humans vs. Robots
- (D) Falling Down and Getting Up

48. To develop perseverance one must

- (A) become more aware
- (B) work hard
- (C) be in the moment and be aware without judgement
- (D) seek guidance

49. How does mindfulness help ?

- (A) It creates awareness
- (B) It quietens the noise of fears and doubts
- (C) It helps one become successful
- (D) It helps develop focus

50. What is the message conveyed in the last paragraph of the passage ?

- (A) Always aim for the best
- (B) Live life king size
- (C) Through mindfulness we can overcome the negative impact of failure
- (D) Social intelligence is crucial for a successful life.
